- Substance use disorder assessment
- Individual and group therapy
- Women and family services
- Educational groups
- Department of Motor Vehicles assessment
- Court assessment
- Prevention programming

Co-occurring Disorders are:

a combination of mental health and/or substance abuse issues in an individual. Obtaining specialized assessment and treatment is vital for people with co-occurring disorders.

Mental Illness and Disorders...

disrupt a person's thinking, feeling, mood, daily functioning and their ability to relate to others. One in four adults in the U.S. – approximately fifty-seven million people – experience a mental health disorder in a given year.

These disorders range in severity from mildly debilitating to life threatening and include:

- Depression
- Bi-polar disorder
- PTSD
- Anxiety disorders
- ADD/ADHD
- Obsessive-compulsive disorder
- Conduct and eating disorders
- Sexual addiction

Education & Prevention Programs

Our *Alcohol and Marijuana Awareness Education Programs* explore the consequences and implications of substance abuse. Clients learn about:

- Personal responsibility and self-improvement
- Attitudes, behaviors and physiology of alcohol and drug abuse
- Legal and law enforcement issues
- Accessing community resources and support
- Community restoration (for court-ordered clients)
