OUTPATIENT SERVICES

Great Lakes Recovery Centers (GLRC) has 11 Outpatient Services offices across the Upper Peninsula. A variety of services happen through the Outpatient Services Offices, including: individual and group counseling, peer recovery, prevention services and Offender Success programming.

Outpatient services are the first option for those seeking counseling, but need the freedom to continue working or attending school. Outpatient services are also used as follow-up or those clients who have completed residential services.

Women & Family Services

Women and Family Services provides specialized case management by a certified Women and Family Specialist to all clients in Marquette County. This casement will address housing, legal issues, financial, education, medical referrals and parenting classes. Funds are available to help with needed expenses including diapers and other essentials, as well as gas cards in some cases.

Peer Recovery Services

GLRC provides peer recovery services throughout Marquette county. Peer Recovery coaches help with the day-to-day aspects of recovery, giving non clinical guidance to people receiving outpatient services. Peer Recovery coaches are individuals who have themselves completed treatment and are living long-term recovery. Peer recovery coaches are available to meet free of charge both in public or at the peer recovery drop-in location at GLRC’s Marquette Outpatient Office. Peer recovery services are confidential.

Group Therapy

A variety of outpatient groups are held weekly at many of our Outpatient Services Locations. These groups provide an non-judgmental setting for individuals struggling with substance abuse, GLRC also facilitates AA and NA meetings at many of our outpatient offices.

Mental Illness and Co-Occurring Disorders

Mental Illnesses disrupt a person’s thinking, feeling, mood, daily functioning and their ability to relate to others. One in four adults in the U.S. experience a mental health disorder in given years. These disorders range in severity from mildly debilitating to life threatening. Co-occurring Disorders are a combination of mental health and/or substance abuse issues in one individual. Help is available through individual and group counseling.
